

Protein Reagent Update: Data and Feature Enhancements

Last Modified on 06/08/2025 8:26 am EDT

We've recently enhanced our detection of **protein reagent usage** in the literature and added new **features** to the platform. Leverage these features to search through **5x more protein data** to help with your next experiment!

Check out this video to learn more about our latest updates:

Check out these articles to learn more:

- **Amino acid coordinates:** [Locating amino acid coordinates for protein products](#)
- **Protein structure data:** [Finding protein structure data from Protein Data Bank \(PDB\)](#)
- **Supplier validation filter:** [Viewing protein products tested/validated by vendors](#)
- **Bioactivity filter:** [Finding bioactive proteins](#)

Access to these **features** and the **articles** above are available to customers with access to **Protein Reagents**. If you have any questions, please reach out to us at support@benchsci.com.
